

Corporate philosophy

Utilize CAE to reduce the burden on designers,
Contribute to product development.

Vision

CAE is a means to achieve product performance.

Fast delivery (2-3 weeks)

low cost!

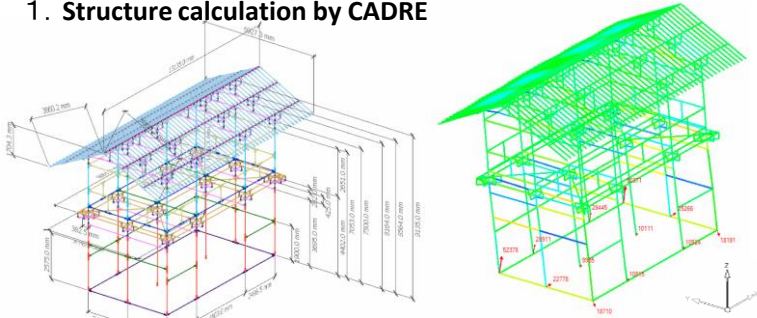

Please contact us for
long-term contacts.

**Simulation tailored to
customer needs**
We will work on it.

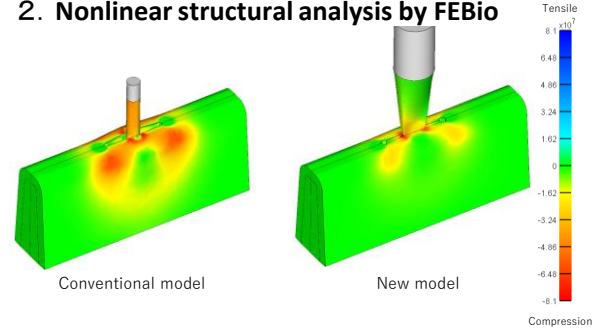

**Low-cost software
(CADRE, FEBio,
DualSPHysics, Blender)
is actively utilized.**

**Large-scale simulation
Development of design
tools**

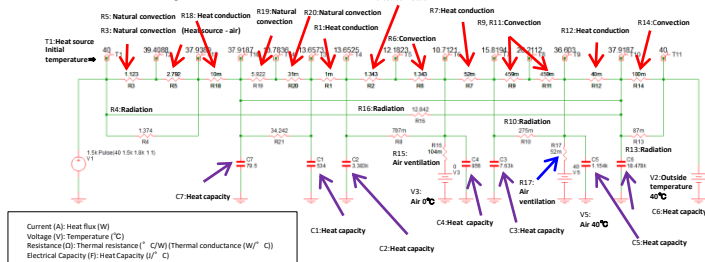

1. Structure calculation by CADRE

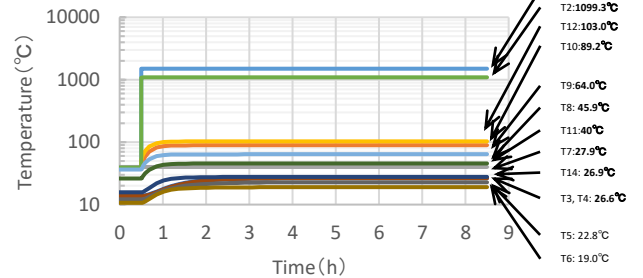

2. Nonlinear structural analysis by FEBio

3. Thermal equivalent circuit

Temperature analysis results by SIMetrics

4. Fluid analysis by DualSPHysics

Flow rate of water

Water pressure

5. Electromagnetic wave analysis by Microwave Oven Simulation

Electric field of waveguide

6. Prototype evaluation

Dental Chisels

Upper and lower jaw models

Mouthpieces
